CAPE FEAR TECHNICAL INSTITUTE  
WILMINGTON, NORTH CAROLINA

1973  
THE BRIDGE

#### FORWARD

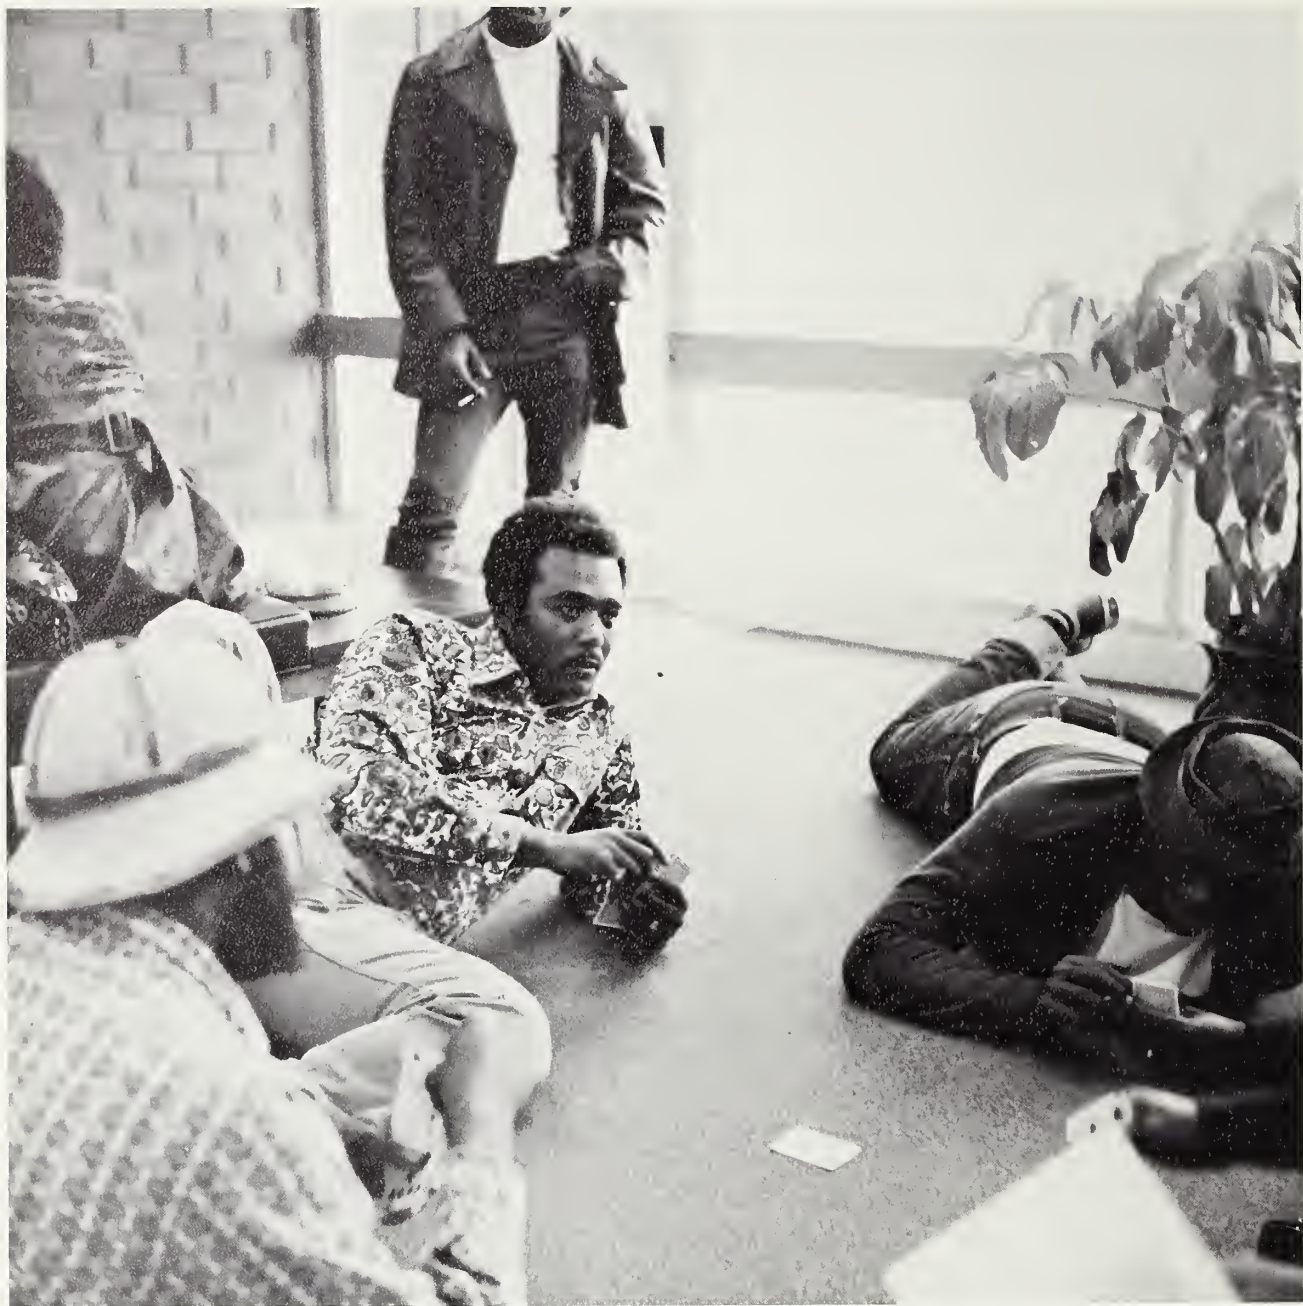

In this, the fourth edition, it seems appropriate that the purpose of The Bridge be re-stated lest the implications of its name be forgotten. First, these pages should provide memories that makes each one of you feel closer to and more a part of this school. Secondly, and we quote from the forward of the first edition, "this school is a bridge over which those seeking skills can cross into the areas of job security, better pay, and advancement. The technician and the tradesman can graduate from our school and suddenly be in demand, whereas before, he perhaps had no saleable skill." Students are the reason there is a Cape Fear Technical Institute. Students are the reason there is The Bridge.

## A black and white photograph of a film strip, likely from a microfilm reel. The strip is oriented vertically and shows a grid of frames. The frames contain various images, including a white cup, a white bowl, and a white plate. Some frames are labeled with text like "SECRET" and "SERVICING". The film strip is mounted on a dark background, and the frames are separated by thin black lines. The overall image is grainy and has a high-contrast, somewhat blurry quality.
